4. Estimating ToD
   C. Algor Mortis
      (3) Environmental Effects on Algor Mortis
         (a) ambient temp.
               - cold temps. - speeds up algor mortis
               - hot temps - slows down algor mortis.
         (b) body size - skinny - speeds up algor mortis
                        obese - slows down algor mortis
         (c) amount of clothing/covering
               - a lot - slows down algor mortis
               - a little - speeds up algor mortis
